## **THE SISSON MEMORIAL PRIZE OF \$200.00 FOR A NEW PINK PEONY**

---

Founded by W. A. Sisson of Rosendale, Wisconsin, in honor of his mother, Pamela Whitcomb Sisson, 1833-1920.

### **Conditions of competition:**

1. The winning variety must be a peony in a shade of deep pink, not previously introduced into commerce.

It must be approved by the judges as an important addition to best existing varieties.

2. The prize shall be open for competition from May 15, 1921, to July 15, 1925, unless it be awarded before the latter date.

3. The prize is to be awarded by the Nomenclature Committee of the American Peony Society for blooms shown at an annual exhibition of that Society.

4. At least three blooms must be shown, with not less than 15-inch stems, with foliage.

5. The winning variety is to be named Pamela Sisson, and a root of it is to be presented to W. A. Sisson.

## ANNOUNCEMENT

Greetings to you all for the new year, 1923.

The 1922 season has been a busy one for us and the business of Sisson's Peonies has more than tripped over the preceding year.

I am no longer able to carry on the business alone and have associated with me, my nephew and namesake, W. A. Lawson. Mr. Lawson owns a Guernsey farm one mile north of the village, known as Elmway Farm, where he has a pleasant country home and here is located our main garden. Our garden is rather small as yet as we deal largely in expensive roots. If we had acres of peonies as others have, we would be multi-millionaires as it would be easy to plant a million dollars worth of roots on one acre. However, we will have ample opportunity to enlarge our garden from year to year as Elmway Farm consists of two hundred acres.

---

### LOCATION

My home is in the center of the village of Rosendale on County Trunk A, midway between the Bank and the Northwestern depot. A number have written asking where Rosendale is. It is located on Highway 23, 12 miles west of Fond du Lac. Rosendale is on a triangle with Oshkosh and Fond du Lac, a little northeast of Milwaukee, about 60 miles distant. Take Highway 15 from Chicago and Milwaukee to Fond du Lac and then take No. 23.

Elmway is directly one mile north from the Northwestern depot on County Trunk A. I still have the old home garden where I live and both my home and that of Mr. Lawson's have the "Sisson Peonies" signs displayed.

If you come to see us, please do not expect to see too much as our valuable stock is small as yet. On the older varieties we will have a good showing.

W. A. SISSON.

## OUR POLICY

We are in the peony business because we love it and we also want to make a living while doing the work we love. So this is why we are in the peony business.

We advertise only in The Flower Grower and the American Peony Society bulletins. All the correspondence we have carried on has been in response to these advertisements. To these people we have sent our price list and folder and to no others. In other words, no one will receive our price list unless they write and ask for it.

All orders that we have received, have received our best attention so far and will continue to receive the same.

Our motto—Prompt and Courteous Treatment.

1. Correspondence is attended to on the date it is received.

2. We deliver your order to you free of all carriage and we guarantee safe arrival.

3. If the roots we send you are not satisfactory, you can return them to us at our expense, except possibly the cheap roots. On these you had best write us first, but rest assured that you will have fair treatment, and any money you have paid will be cheerfully refunded.

4. We go even further than this. We want to hear from you the following year as to how the roots come on. If any roots die through no fault of yours, we will make good.

5. We will give a gratis root with every order and we allow you to select the root in this way. Name a number of varieties you would like, a half dozen or more, on a par with those you have ordered and also a number of others. We will at least send one and perhaps several if your order is large enough to warrant. This offer was made last year and not more than half a dozen people abused it and so we make bold

to continue. Name the roots you want, but do not expect us to furnish anything and everything that your fancy may dictate, free. We like to give you what you want, if your wants are not unreasonable.

To carry out the above points means a good deal and is something that is not being done. This season that has just closed, it has been our privilege to make good to a few persons. One party writes, "I wish you the success your generous methods certainly deserve." This party and many others have been surprised and delighted with our treatment. We could fill our folder with complimentary letters, but we shall not do so. We had four complaints and wish we had permission to print them herewith word for word and tell you what we did. However, we can say that all is well and we count them among our friends.

We let our customers judge us, we do not judge them. We guarantee satisfaction and if we fail to give you any reasonable satisfaction, we will refund your money and more.

### **GUARANTEED DIVISIONS**

We sell nothing but small planting divisions. Each division should have one strong eye and perhaps two, and probably some small eyes with a root to grow the eyes.

When the root leaves our hands it is ready to plant and must not be cut further or tampered with. The roots we furnish may appear small, but they are not so small as they look as they have been cut well back and are ready to plant. All roots that we have ever bought come to us without having been cut back for planting and with the old stem rot intact and other decayed spots in evidence. These roots have to be trimmed and cut back and all refuse removed. When this has been done there is not much left.

Therefore, when we say that when the roots leave our hands they are ready to plant, this means something. Plant them as we direct and we guarantee them to grow and catch up with any other sized root in two years.

But you perhaps are saying, I do not want to wait two years. We reply that you will have to wait at least three years on any sized root, no matter how large, before you get true blooms and possibly four or five years to allow the plant to produce its best.

There are exceptions to all rules, but here is the rule that most people will agree with. The first year you will have some blooms. The second year you will have a fair showing. The third year your plants will have become established and may reach perfection. If not, they will have reached their best in another year or two.

### **BE PATIENT**

So many write, "I want large roots, how large are yours," etc. Read the above carefully. Our claim is that our roots will reach and bear perfect flowers as soon as any other sized root will, no matter how large. A small-sized root can be planted correctly, a large root cannot. In any case the root has been disturbed and it will not establish itself until it has had time to do so. And so we state, you must be patient.

### **HOW TO PLANT**

All growers tell us how to plant and we are continually reading long articles on the subject. We have tried to tell what little we knew in the last folder issued, but still many write asking for more details, asking if they shall do this, that or the other.

Please do not look at planting as such a complicated matter. Use your common sense, you probably possess as much as the average person.

Select ground free from shade and well away

from trees and well drained. Peonies will not do well on wet ground. They do better without quite enough water, than with too much water, so do not attempt to water your plants unless you have no rains at all and have to irrigate. Never sprinkle. If you experience endless dry spells, then you might soak the ground if you know how, but never sprinkle.

Assuming that you have good garden soil to work with, prepare it by deep spading and work up fine. Stake out the rows four feet apart. If for a permanent planting, plant three feet apart in the rows. Take the roots just as we send them to you, dig a hole large enough to fit the root, place it therein and squeeze the dirt tight about each root and rootlet. See that the eyes are not more than two inches below the level of the ground. Then heap on mulch or any litter of straw, hay, lawn clippings, etc. If you have no mulch then heap on the dirt over the crown of the plant to form a drain. The litter is put on the first year to guard against freezing and thawing, which might raise the root. After the first year no covering is necessary more than the old stalks. Let them remain until Spring and then remove with all stray matter, keeping your garden free from refuse.

Keep manure off the field. Put your manure with leaves, sod and other available material, in layers and let it rot for one year, then throw the rich dirt over the field. Never plant your roots in mulch dirt, let the mulch work in gradually as you cultivate. If you have any wood ashes or can obtain any, put plenty of it between the rows and if you are careful you can place enrichment in this way. As the years go by, make soil a study and take care of it as your knowledge prompts you to.

## **KEEP THE DIRT MOVING**

Now we come to the important point,

keep the dirt moving. Unless you do this, all your other care and work will avail you nothing. Cultivate and hoe every day. As soon as you get through the garden once, start right over again. Especially in dry times, every inch of ground should be carefully hoed or cultivated every day. When the plants come up the first spring, mulch with litter.

Caution—Having planted the roots we send you, do not dig or disturb for three years. It would be better to leave them four or five years. If you do not heed this caution, your plants may lose their vitality.

### **AMERICAN PEONY SOCIETY**

To those who are not members of the American Peony Society, we invite you to join. Write us or the Secretary, Mr. W. E. Saunders, London, Ont. Fee and dues first year are five dollars, thereafter three dollars. Members receive valuable literature on the peony and from year to year, bulletins that are issued.

If you are interested in the Gladioli, you should join the American Gladiolus Society. Write the Secretary, Mr. David Tyndall, Brockton, Mass. Dues are two dollars per year.

### **THE FLOWER GROWER**

We consider The Flower Grower, a monthly magazine published at Calcium, New York, absolutely the best flower paper ever published. If you read it, you will keep well informed on almost every flower grown. If you join the American Gladiolus Society, you will receive this magazine free, as it is their official organ. The magazine is easily worth five dollars per year to anyone interested in flowers. However, subscriptions are only one dollar and a half per year. You had best join the Gladiolus society and receive it free of cost.

## PERCENTAGE RATINGS

Percentage on rating peonies as voted by the American Peony Society we do not use. While we have a vast respect for these ratings, we consider them as misleading as they are helpful. Most of the varieties that we are interested in are not rated for the reason that few if any gardens have them on account of their high cost and recent introduction. We have, however, taken care to discard all varieties that the society asked its members not to grow.

## PLEASE REMEMBER—

We sell nothing but divisions.

We are retail only.

We do no wholesale business.

We have no trade list.

We absolutely do no trading.

We do not compete for business.

So many people send us lists to bid on, they want to trade peonies, they want our trade list, they want wholesale lists, they want to trade for various kinds of flowers and especially for Gladioli. We cannot consider anything of the kind and if you will kindly remember this, you will save not only your time, but ours.

## ORDERS ARE FILLED IN FALL

We begin to dig and fill orders the last of August and continue until freeze up. Our experience is that planting any time from September 1st until freeze-up brings good results. The late plantings seem to do as well as the early.

There are a few as yet who still cling to Spring planting. We do not believe in it and under no circumstances will we fill orders in the Spring, for the reason that it sets the roots back one year so there is nothing gained in time. Further, at this time the eyes are brittle and you are quite sure to do more or less damage. Our stock is too valuable to take these risks.

## **ORDERS BOOKED NOW**

Prices quoted herein subject to change without notice. Our stock is very, very limited.

Reference—Rosendale State Bank.

## PARTIAL LIST OF GLADIOLI

Here are a few varieties of our Gladioli. We list only the expensive sorts, but we have many of the cheaper ones of the leading introducers.

If you are interested in any of the better Glads, write us for special prices. We have most of Kemp's, Austin's and Coleman's varieties and on a par with these. These are not as yet listed, but write us your wants and prices you will pay.

We also have a few bushels of good mixtures that we will want to sell in the Spring.

### Diener's Varieties
